Employment

Web development Internee

National Incubation Cente, Gujrat

Oct 2022 – Apr 2023

I had the privilege of completing an enriching internship where I leveraged my web development skills to contribute to dynamic web Apps. My time at NIC provided valuable insights and allow me to collaborate with passionate individuals and startups while further enhancing my technical expertise.

Level Two Seller, Fiverr

Verfied Seller, Upwork

Feb 2020 – Present

As a freelance developer, I have successfully undertaken numerous projects spanning web application development. My expertise encompasses a wide range of technologies, including WordPress, React.js, API integration and various front-end technologies. Over the years, I have collaborated with diverse clients to deliver tailored solutions, providing them with exceptional digital experiences.

Selected Projects

POEYA Console

React js | Node APIs (Client Based)

Live: console.poeya.site

In Console, a call center-focused web platform, I developed core modules such as **client data input**, **automatic PDF generation** using React.js, and **Node.js APIs**. This project enhanced my skills in API integration and more. The system streamlines client onboarding, **tracks call center performance**, and offers user **account management**, catering to both administrative and call center-specific needs.

Weather Stats

React js | Weather API | Tailwind

Github: github.com/sheikh-tabarak/weatherstats

Weatherstats is a dynamic React.js web application to access **real-time weather data of current location** and offers a customized weather stats and **search by city** or country name.

Chat App

React js | Node API | Bootstrap

Github: github.com/sheikh-tabarak/spot_hub

Chat app is a web application designed for real time user chats.

Designed 100s of Wordpress Wesbsites (ECommerce, Rental, Portfolios and Corporate)
